1. Discussion - Founders Landing Pier Project

The Commission met to discuss the Founders Landing Pier Project. George Meister with GEI Consultants presented to the commission a power point which began with a brief history of the pier. It was explained that permitting and fluctuating costs of construction materials has caused some delay. To meet the permitting and budget criteria Mr. Meister reviewed four possible design options. Following the presentation, the work session was opened up to the Commission to ask questions and discuss the various possibilities.
